1. General provisions

1.1. Full time e-studies (hereinafter-e-studies) is a form of study at Alberta College (hereinafter-AC), which is implemented by the procedure of study organization and support system described in this Regulation.

1.2. E-studies is offered in the directions and programmes approved by the Council of AC and are governed by this Regulation, the description of the programme curriculum and its implementation, course descriptions, Regulation on the Order of Studies and Examinations, and other binding normative documents.

1.3. The following principles of e-studies organisation are identified implementing a student-centred study process, in line with the defined image of an AC graduate:

1.3.1. Study availability and student involvement:

- anywhere, anytime where there is internet access;
- e-environment and AC environment for students of all study forms;
- *live contact* with the lecturer and group members;
- discussions, seminars, presentations;
- group assignments;
- communication in forums and outside AC e-environment.

1.3.2. Quality and support (for students and staff):

- orientation towards learning outcomes;
- uniformity of the e-environment;
- precisely defined requirements, balanced workload;
- e-environment instructions;

- telephone number and e-mail for technical questions;
- meetings and consulting in the e-environment and onsite.

1.3.3. accumulation of experience and exchange of information:

- among staff—methodological conferences, methodical workshops, manuals;
- with business partners:
 - back to the level of bachelor’s studies at the EKA University of Applied Studies, to ensure an opportunity for students to continue studies;
 - foreign partners (bidirectional);
 - experience exchange visits and mobility trips to partners;
- Among undergraduate students
 - Moodle forums;
 - group assignments, seminars, discussions;
 - promotion of informal communication;
 - conferences, training and creative workshops.

1.3.4. Continuous development, implementation of innovations, improvement:

- regular audits;
- assessment of the situation and dynamics;
- development – technical, form, and content;
- simplification and safety of student identification.

1.4. The following technology solutions are used in the organisation of E- studies: Moodle, Big Blue Button, web- integrated solutions.

1.4.1. Moodle is an e-studies platform created for the placement of study materials, submission and testing of independent assignments, feedback, written tests and written communication.

1.4.2. The Big Blue Button is a videoconferencing system designed for running lectures, exercises, seminars, etc., online and oral tests.

1.4.3. On the website instructions, there are contacts, lecture and consultation schedule, manuals and exam ratings, a tool for filing inquiries, asking organizational questions, etc.

2. Organization of e-studies

2.1. The section of AC website “E-students” provides tutorials for working with Moodle and Big Blue Button as well as technical requirements for the work in the e-environment (computer

and operating system requirements), of which students are informed when they start their studies.

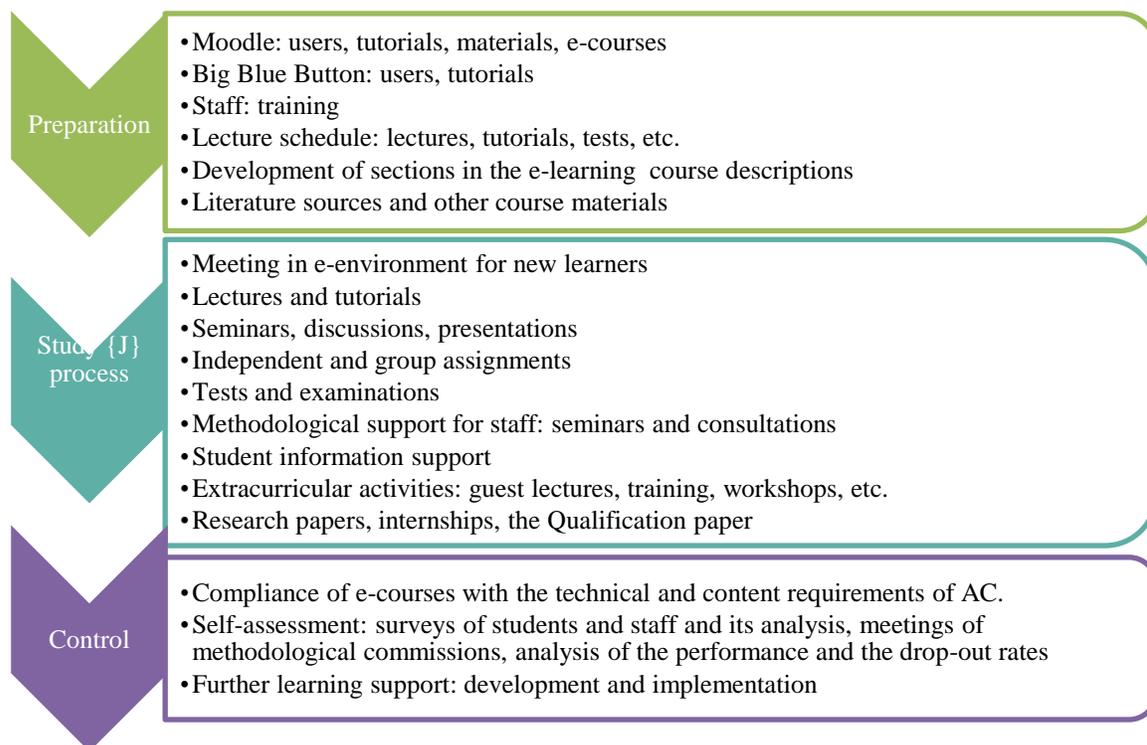

- 2.2. At the beginning of the year of study, a meeting with newly enrolled students on the organisation of the study process is organised. The meeting takes place in the e-environment using the Big Blue Button. The meeting is recorded, the current video is available on the website for one year.
- 2.3. The plan of the study programme shall determine the volume and number of credits to be acquired during the year in question, as well as the sequence of study courses in semesters. The course descriptions determine the amount of independent study, tests, and the number of independent assignments and course themes; it also contains e-study calendar, number of independent tasks, description and the amount of the independent reading.
- 2.4. The lecturer prepares an e-course according to the description of the course and the general requirements of AC for the development and structure of the e-course (see Section 4 and Annex 2 of this Regulation).
- 2.5. At the beginning of each study course, the lecturer presents students with the requirements for learning the course and the deadlines for the completion of independent assignments.
- 2.6. Within one to two weeks after the deadline for submitting the independent assignment, the lecturer examines the submitted assignments by posting the grade with the added comments on the Moodle system. Comments must be provided on all independent assignments, which have a score of less than 9 (excellent) points.
- 2.7. If the independent assignments and other tasks performed for the course of study have been submitted after the specified deadline, the lecturer will be entitled to act in one of the following ways (respecting consistency for all students) and informing the students at the beginning of the course of study and including it in the course description:
 - Assignments are not accepted after the deadline, the student is assigned additional tasks during the exam, etc. All students are admitted to the exam;
 - If assignments are submitted after the deadline they are accepted, checked and the grade is reduced. Only students who have completed and received a successful assessment of their independent assignments are admitted to the exam.
- 2.8. As a part of each study course, the teaching staff prepares and delivers video lectures online using the Big Blue Button and creating a video lecture room. Links to video lecture rooms are available to students in their lecture schedule, and in the section “E-students” on the website.
- 2.9. The Regulation on the Order of Studies and Examinations determines the duration of the lecture and the number of lectures according to the amount of credits for the course.

- 2.10. In order to make the video lecture available to e-study students after online lectures, each video lecture is recorded. The lecture video is available on average in eight hours after the online lecture and is available by the end of the semester. Lecture videos may be stored for an extended period of time as needed.
- 2.11. Lecture videos from the system are erased centrally or individually by the decision of the director AC.
- 2.12. If the lecturer did not deliver or record an online video lecture due to personal reasons or technical problems, then the lecture must be delivered repeatedly and recorded no later than in two weeks from the date when the lecture was planned in the lecture schedule. No additional remuneration is calculated for these lectures, except in the case of technical problems due to the AC fault.
- 2.13. At the conclusion of each study semester, an examination period takes place (January and the end of May/June), during which students are undergoing tests in the e-environment using the possibilities of the Moodle and Big Blue Button according to the course requirements. The defence of Research papers is organized in person or online using the Big Blue Button. The State Final Examination is taken onsite.
- 2.14. No later than one week after the date of the examination, the lecturer shall post the assessments in the minutes and submits them in person or by electronic means to the Department of Studies.
- 2.15. Consultations are organised as necessary and can be provided in different ways:
 - Moodle forums;
 - by e-mail (the reply must be given within 1-3 working days from the date of e-mail reception);
 - onsite at AC (individually or in a group with students) (informing about the date the coordinator of the AC programme);
 - in video lecture system Big Blue Button (informing about the date the coordinator of the AC programme).
- 2.16. During the last two semesters, students are required to complete a study internship and a qualification internship, which are conducted and governed by the Regulation on the Order of Studies and Examination, as well as the Regulation on Independent Assignments.
- 2.17. In exceptional cases, with the consent of the director of the study programme and the members of the defence commission, the defence of internship reports and the Qualification paper can take place in the e-environment. In such cases, the director of the study programme shall be responsible for requesting technical support and student identification.

3. Main phases and participants of e-studies

3.1. Participants in e-studies process are the director of AC, students, teaching staff, heads of study directions, directors of study programmes, the Department of Studies, e-coordinator, IT administrator.

3.2. The main phases of e-studies process are as follows:

3.3. The main duties of e-studies participants are presented in the following table in line with the steps of e-studies:

	Preparation	Study process	Control
Director of AC	<ul style="list-style-type: none"> • To control the access of students and the teaching staff to the e-environment tools • To control the organization of studies • To control the development of e-courses • To control the provisioning of the e-environment system • To control and secure the Library resources • To control the appropriateness of AC hardware for e-studies 	<ul style="list-style-type: none"> • To hold a meeting with students • To provide methodological support to the teaching staff • To organise the survey of students and the staff 	<ul style="list-style-type: none"> • Summary of the activities of the e-studies process • E-Course audit summary • Completed study and staff survey
Students	<ul style="list-style-type: none"> • To get acquainted with technical requirements for the e-environment 	<ul style="list-style-type: none"> • To fulfil course acquisition requirements • To pass examinations in due time • To participate in extracurricular activities 	<ul style="list-style-type: none"> • Participation in the student survey • Received grade in study courses
Teaching staff	<ul style="list-style-type: none"> • To get acquainted with technical requirements for the e-environment 	<ul style="list-style-type: none"> • To deliver lectures and provide advice • To communicate with students 	<ul style="list-style-type: none"> • Examination report is submitted to the Department of Studies

	Preparation	Study process	Control
	<ul style="list-style-type: none"> To participate in training seminars To prepare an e-course in accordance with the requirements of AC. 	<ul style="list-style-type: none"> To assess the students' independent assignments and tests To complete the Examination report and submit it to the Department of Studies 	<ul style="list-style-type: none"> Participation in the staff survey E-course developed according to AC requirements
Heads of study directions and directors of study programmes	<ul style="list-style-type: none"> To inform new teaching staff about e-environment system, requirements and opportunities To conduct the survey of the teaching staff about the required literature and library resources 	<ul style="list-style-type: none"> To communicate with the staff and students To control the appropriateness of student learning requirements to the study direction and the results of the study programme 	<ul style="list-style-type: none"> E-course relevance for study and programme purposes Completed student survey Informed and trained teaching staff Participation in the staff survey
Department of Studies	<ul style="list-style-type: none"> To prepare the schedule of lectures, tutorials and examinations To provide informative support to students and the teaching staff 	<ul style="list-style-type: none"> To update the schedule of lectures, tutorials and examinations To provide informative support to students and the teaching staff To inform the staff involved in the solution of problem situations (excluding students) 	<ul style="list-style-type: none"> Lectures, consultations, tests took place according to schedule Participation in the staff survey Informed students and the teaching staff
E-Coordinator	<ul style="list-style-type: none"> To organise training for the teaching staff (see the program in Annex 1) To prepare and update manuals and technical requirements for work in the e-environment To prepare the list of video lecture rooms To ensure the placement of tutorials, link to the list of video lecture rooms on AC website, Moodle and ensure their accessibility to students and the teaching staff 	<ul style="list-style-type: none"> To provide advice to learners and students for the work in the e-environment To conduct an e-course audit informing the users of necessary improvements To summarize e-environment-related problem situations and inform the involved staff (excluding students) 	<ul style="list-style-type: none"> E-course audit results summarised Trained teaching staff Tutorials and technical requirements are available Participation in the staff survey
IT Administrator	<ul style="list-style-type: none"> To ensure the technical compliance of the e-environment with AC requirements To create the list of links to video lecture rooms To ensure the appropriateness of AC hardware to e-studies 	<ul style="list-style-type: none"> To maintain the e-environment system To provide technical support to the coordinator of e-studies To inform the director of AC, the coordinator of e-studies about updates of the system or other topical issues related to the e-environment 	<ul style="list-style-type: none"> Implemented measures for the development of ICT E-Environment tools work according to the requirements of AC Participation in the staff survey

4. Content and form of an e-studies course

- 4.1. Course for e-studies are prepared by each lecturer independently and in compliance with the requirements of AC. If one course is delivered by several lecturers, they agree on the order of the development of the e-course and the placement of information, considering the requirements of AC (Annex 2).
- 4.2. In the E-course, mandatory requirements are information about the lecturer (name, surname, e-mail), description of the course, information about the possibilities for consultation, requirements for course acquisition (separately highlighting requirements for e-students), study material (lecture summaries, presentations, videos, links to Internet resources or other

materials), a detailed description of home and independent assignments (deadlines are mandatory) and links to video lecture rooms (see Annex 2).

- 4.3. The e-course forum is used for active communication between lecturers and students (questions and answers, announcements, reminders, etc.).

E-course template

Each lecturer must work in Moodle, offering an active e-course for all student groups, which includes the criteria defined for the E-course development levels:

1. Elementary level – level of minimum requirements
 - The lecturer's name, surname, e-mail;
 - Reference to the groups of students to whom the lecturer runs the course (if the course is run by several lecturers);
 - Description of a study course;
 - Information on consultation with a lecturer.
2. Intermediate level – level of minimum requirements
 - Information material for learning course (presentations, summaries, video, links to Internet resources or other materials);
 - Requirements for the course acquisition (the thematic plan can be inserted, general questions for examination, etc.)
 - Detailed description of independent work and homework;
 - Video lectures and recordings if links from BBB are copied from the study course (here you can insert a link to the video lecture room).
3. **Advanced level-level of recommended requirements (level of additional remuneration)**
 - Other interactive activities and methods (surveys, selection of topics, tests, etc.);
 - Possibilities and assessment and submission of independent assignments and homework;
 - List of literature and information sources;
 - Active forum (communication with students, announcements, reminders, etc.).

E-course template contains the following information:

1. E-course template if the course is run by one lecturer;
2. E-course template if the course is run by several lecturers;
3. Video lecture room (BBB) template.

Consultations for the development of a Moodle course are available registering with the e-environment coordinator via e-mail moodle@alberta-koledza.lv.

For reference: in accordance with the Regulation on the Pay of the Staff and the data of personnel assessment and motivation system the staff receives a bonus for the development of courses for the respective e-course development level.

E-course template if a course is run by a one lecturer

VISPĀRĪGA INFORMĀCIJA PAR STUDIJU KURSU

Kursu vada: Mag.sc.soc., docente **Vita Stīģe-Skuškovnika**

E-pasts: vita.stige@gmail.com

Konsultācijas: kursa forumā, pa e-pastu, tiešsaistē vai klātienē (pēc pieprasījuma)

 Forums: diskusijas; jautājumi un atbildes

 Studiju kursa apraksts "Sabiedriskās attiecības un to praktikums"

Specify:

- Lecturer's name, surname, e-mail (Edit-> Edit section or Add an activity or resource-> Label)
- Information about consultation possibilities with the lecturer (Edit-> Edit section or Add an activity or resource-> Label)

Insert:

- Description of the study course approved by the programme director (Add an activity or resource-> File)

Create:

- Active discussion/news forum for communication with students, announcements, reminders, etc. (Add an activity or resource-> Forum)

STUDIJU KURSA APGUVES PRASĪBAS

Pilna (SA-Pd-1) un nepilna (SA-N-1) laika studējošiem studiju kursa apguves prasības ir sekojošas:

- Lekciju apmeklējums – PL studējošiem 75%, NL – 50%;
- Izpildīt un savlaicīgi iesniegt individuālos mājas darbus (preses relīze, SA nozares ziņu analīze, ārpuslekciju pasākumu atziņas);
- Izstrādāt un prezentēt individuālu/ komandas darbu (SA darbības analīze);
- Nokārtot rakstisku eksāmenu - atbildēt uz 3 jautājumiem no 4.

E-studijās (SA-Ne-1) studējošiem studiju kursa apguves prasības ir sekojošas:

- Izpildīt un savlaicīgi iesniegt individuālos mājas darbus (preses relīze, SA nozares ziņu analīze, ārpuslekciju pasākumu atziņas);
- Izstrādāt un prezentēt/iesniegt individuālu darbu (SA darbības analīze);
- Nokārtot eksāmenu - Moodle vidē atbildēt uz 5 atvērta tipa jautājumiem.

Specify:

- Course learning requirements (Edit-> Edit topic or Add an activity or resource-> Label)

Insert:

- Guide questions for the examination (Add an activity or resource-> File)
- Thematic plan, if there is any (Add an activity or resource-> Label)
- Other interactive activities and methods (surveys, options, tests, etc.)
